

Digital Transformation: Advanced Technology & Architecture

Program pelatihan Digital Transformation: Advanced Technology & Architecture dirancang untuk memberikan pemahaman mengenai transformasi digital dan penerapan teknologi modern seperti Cloud, Blockchain, IoT, dan AI dalam membangun solusi digital enterprise.

10 Module

Module 1:

Fundamental Digital Transformation

Module 2:

Digital Transformation in Practice

Module 3:

Fundamental Cloud Computing

Module 4:

Fundamental Blockchain

Module 5:

Fundamental IoT

Module 6:

Cloud Architecture

Module 7:

Blockchain Architecture

Module 8:

IoT Architecture

Module 20:

Fundamental AI Architecture

Module 21:

Advanced AI Architecture

APA YANG AKAN DIPELAJARI?

- Fundamental Digital Transformation
- Implementasi Digital Transformation dalam bisnis
- Fundamental Cloud, Blockchain, dan IoT
- Konsep Cloud, Blockchain, dan IoT Architecture
- Fundamental AI Architecture
- Advanced AI Architecture
- Integrasi teknologi modern dalam transformasi digital
